BUSINESS LAW SEMINAR

Nearly all of the applicants that fail the COUNTY SPECIALTY EXAMINATIONS fail the Business Law portion of the exam. For the past twelve years our instructors have been conducting seminars throughout the state to help applicants achieve a high score on those questions that are taken from the required books. **References & Materials Required:** Bring the appropriate book required for the business section of the test, yellow Q & A workbook, calculator, hi-liter and a valid picture I.D. (driver's license). Enroll now and receive a Question and Answer book containing over 175 questions and examples that have been repeated over and over again on these examinations. **2 sets of practice exams** and questions most frequently asked will be covered at the seminars. One of the reasons why this part of your exam is so difficult to pass is due to the fact that some of the books do not contain an index. Customized tabs can only be purchased at the seminar. We have known candidates to score in the 40's, without our help. Our instructor has been conducting seminars throughout Central & South Florida for the past 12 years and is very familiar with the questions. His students average in the high 80's after attending his seminar. Help is also available at our learning centers in **Hollywood, Miami, West Palm Beach, or Tampa Area** for Technical or Trade portion of your TEST, if required.

ATTEND AS MANY SEMINARS AND LOCATIONS AS YOU WISH FOR UP TO ONE YEAR!

Unlike some cassette tape courses that are available, these seminars include only current, up to date information and are conducted by "Live" instructors who will answer your questions and explain, in detail, the practical business applications of these books. **REMEMBER:** Out-dated material and information will not get you a passing grade. The testing agency uses only current references when writing the examinations. Don't be fooled into buying lesson plans or cassette tapes that are several months old!
